### ***Examiner's Amendment***

Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Leonard P. Diana on March 16, 2207.

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

The following amendment has been made: **claim 22 is canceled.**

### ***Allowable Subject Matter***

2. Claims 1-12, 16-18 and 20-21 and 23 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-12 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an image processing method and apparatus comprising the steps of or means for

correcting an input color image signal according to an observation condition to produce a corrected input color image signal; and converting, after the correction, the corrected input color image signal into an achromatic color image signal when it is determined that the input color image signal represents achromatic color, and not converting the corrected input color image signal when it is determined that the input color image signal does not represent achromatic color.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*
